

CONNECTING THE EXTENSION PEICES

for Shukuma DOLLY extension kit

1. Once you have all items unpacked and open, please confirm that all items are included (see list below).

2. Carefully slide in the four extension connectors on the two outer grooves (top and bottom). Make sure you align the rails perfectly to join it straight and smooth.
3. Ensure that the two grub-screws closest to each other on each extension connector, lines up in the centre where the two rails are joined.
4. Use your Allen-key tool to tighten the grub-screws firmly.

ITEMS INCLUDED

- 1x 1m rail
- 1x Belt (depending on your total rail length, up to 3m max, thereafter additional charge will apply)
- 1x Leg set
- 1x Tripod release-plate T-nuts
- 4x Extension connectors
